

AUCTION SALE OF LAPIDARY & JEWELRY MAKING EQUIPMENT

March 13, 2010
Will Rogers Garden Exhibition Bldg.
3400 NW 36th Street
Oklahoma City, OK

The Oklahoma Mineral & Gem Society, Inc. announces a large auction sale of jewelry making tools and equipment; lapidary equipment; silver, cabochons, rocks, slabs, and associated supplies.

The sale will be held on Saturday, March 13, 2010, in the OMGS regular meeting room in the Will Rogers Garden Exhibition Building, 3400 NW 36th Street, OKC, OK.

The building will open at 9 am. for preview of the sale, and the auction will begin between 9:30 and 10:00 am. The building is heated & air conditioned for your comfort. There is plenty of seating available as well as water fountains, and clean restrooms. Plentiful off-street, free paved parking is available in the two parking lots. The building is the first structure west of I-44 on the south side of NW 36th Street. The parking lots are entered only from NW 36th Street. Approaching on I-44 from the NE, there is no exit for NW 36th; therefore, exit at May Ave. and go south about 3 blocks to 36th, and then west about ¾ mile passing over I-44 and continuing west past the I-44 access road to the turn-in to the parking lots. Coming from the South on I-44, exit (right lane) at 36th Street. Turn left on-to 36th and cross over I-44 and continue west past the I-44 access road to the turn-in to the parking lots.

The items in this auction come from long-time OMGS members who, due to physical infirmities can no longer participate in their hobby. The equipment listed appears to all be in excellent condition (some is new and unused), well cared for and ready to provide the purchasers with many years of service. Care has been taken to assure an accurate representation of the items listed, but all items are purchased on an as is, where is basis, and announcements made the day of sale will supersede all others.

The sale is open to the general public. Payment must be by cash or check with proper identification. No credit cards can be accepted.

Come and enjoy the friendship and fellowship of your rockhound friends, and take some bargains home. OMGS club members will be available for assistance in loading, etc.

For additional information call (405) 262-6715.

OMGS EQUIPMENT AUCTION MARCH 13, 2010

| <u>Lot #</u> | <u>Description:</u> |

Additional sales lots of Cabachons, (including Fire Agate, Mexican Opal) Slabs, Turquoise, and items of jewelry.

Silver

All Silver has been carefully weighed on Calibrated AccuLab Electronic Scales, and the weights recorded on the individual lots. All Silver is being sold as Sterling, although there may be a few pieces of Fine Silver mixed with the Sterling; however, there is no silver plate, or Nichol.

The raw silver has been roughly divided into the following categories: Silver Sheets; Silver Wire (round, half-round, double half-round, square, triangle, twist, etc.); Fancy bezel and pattern. There are multiple sales lots in all categories. If you desire to acquire some silver for fabricating jewelry at bargain prices this may be the best opportunity you will ever have.
